

ENVIRONMENTAL POLICY

CORICA is a leading player in the provision of Mining and civil construction services across Africa and operates various business units that deliver a wide range of mining and civil construction services.

Our Vision is to be the leader in mining and civil solutions that delivers successful projects for our clients and create sustainable value to Stakeholders.

Our project teams are backed by an experienced corporate management team, an integrated and innovative contract management system, and a strong commitment to the environment.

In living our value of environmental respect, we work to deliver sustainable outcomes, ensuring that the potential for environmental harm from our activities is minimised and responsibly managed.

Approach

The key principles and actions underpinning our environmental policy are:

- Take environmental issues seriously at a Senior Management Level
- Develop, implement, and monitor an environmental management plan for each operation.
- Consulting with all stakeholders to ensure that environmental impacts & aspects on sites are understood and addressed effectively.

We maintain and continuously improve a Management System that complies with the requirements of ISO14001:2015 and all environmental legislation and other requirements which are relevant to CORICA.

Our environmental objectives are to:

- Minimise environmental impact to land, water, air, flora, and fauna
- Prevention of pollution, protect the environment, and preserve natural resources
- Reducing our carbon footprint

Objectives

To achieve these objectives, we shall act to:

- Work closely with our clients and integrate contractual and legislated environmental requirements into our Environmental Management Plan
- Use suppliers, wherever possible, who have similar environmental objectives and give preference to environmentally friendly products and equipment.
- Establish, monitor, and review environmental sustainability objectives and targets and identify opportunities to improve our environmental sustainability
- Evaluate the performance, effectiveness, and compliance of our environmental management systems through regular audits and reviews
- Implement effective controls to identify, evaluate, eliminate, or reduce adverse environmental risks from our work activities
- Seek out innovative solutions for adapting to the effects of climate change and to mitigate our carbon footprint.
- Regularly report our environmental sustainability performance and consult with stakeholders
- Provide training and support to our workforce, and business partners to understand their responsibilities for the
- implementation of environmental sustainability principles and practices

This Environmental Policy is communicated to all employees, contractors and visitors and it is available to all others interested parties upon request.
